KENT L. JONES
State Engineer/Division Director

GROUNDWATER MANAGEMENT POLICY FOR WATER RIGHT AREAS 14 AND 69

The State Engineer believes there is unappropriated water available in the underground aquifer system of Water Area 14 (Pine Valley) and Water Right Area 69 (Wah Wah Valley and Sevier Lake Area). In the past applications in these areas were limited to small filings proposing to appropriate sufficient water for the requirements one family, 1/4 acre of irrigation and 10 head of livestock (1.73 acre-feet). The State Engineer will now consider applications for all uses and reasonable amounts. Applications will be considered based on their individual merits and the immediate need for the water.

Dated this 1 day of April, 2014.

Kent L. Jones, P.E., State Engineer
